SUMMARY

Results-driven Software Developer with a proven record of designing, developing, and deploying 10+ mobile and web applications. Skilled in cross-platform development, UI/UX enhancement, and agile collaboration. Adept at optimizing app performance, debugging complex issues, and ensuring high-quality, user-focused solutions that align with business goals.

WORK EXPERIENCE

QA & Front-End Developer, Zapplogics Solution

Feb 2024 – Present

- Conducted comprehensive testing for 50+ mobile applications, improving crash stability by 35% and reducing user-reported bugs by 40%.
- Delivered 4+ production-ready applications, increasing user retention by 25% and optimizing UI load time by 40%.
- Partnered with designers and developers in an agile environment to streamline release cycles, reducing testing turnaround time by 30%.
- Redesigned QA workflows and processes, cutting release delays by 20% and boosting delivery efficiency.
- Documented detailed bug reports, sprint summaries, and performance metrics to support data-driven improvements.

PROJECTS

TryThat-Legacy (Broker App)

- Built a full-featured platform for managing rental and sale properties, including office spaces and listings.
- Implemented all UI layouts, core functionalities, and API integration to enable seamless cross-platform performance using React Native.

Hotel Management App

- Created an operational management system for restaurants to manage staff, reservations, parking, menu, and billing.
- Leveraged Flutter and Firebase for real-time updates and synchronization; successfully deployed live on the App Store.

PG Management App

- Designed and launched a digital platform for PG (Paying Guest) owners to manage staff, members, billing, and cleaning operations.
- Integrated real-time synchronization using Firebase; app currently live on the App Store.

Portfolio Website

- Developed a personal portfolio website showcasing professional projects and skills.
- Optimized performance, responsiveness, and navigation using React.js for a refined user experience.

ACHIEVEMENTS

- Improved app testing cycle efficiency by 30%, reducing release delays and enhancing deployment speed.
- Contributed to 3 successful app store launches with 4.8+ average user ratings.
- Recognized by team leads for proactive debugging and workflow optimization.
- Played a key role in introducing performance metrics that improved code quality by 20%.

EDUCATION

B.Tech (CSE)	Oriental College of Technology (OCT), Bhopal	2020 – 2024
12th (MP Board)	Silver Bells Convent School, Bhopal	2019 – 2020
10th (CBSE)	International Public School, Bhopal	2017 – 2018

SKILLS

Languages	Java, JavaScript, HTML, CSS
Frameworks/Libraries	React.js, React Native, Bootstrap, Tailwind CSS, Flutter
Databases	MySQL
Tools	Git & GitHub, Firebase, AWS
Core Expertise	Cross-Platform Development, UI/UX Design, Agile Methodology, API Integration, Debugging, Performance Optimization

CERTIFICATIONS

- Java Programming – Great Learning
- MySQL Database – Great Learning
- C Programming

INTERESTS

Listening to Music, Traveling, Badminton, Cricket
